

EMEA Complex segmentectomies course

May 3-4, 2023

(08:00 – 18:30 CET and 08:30 – 14:30 CET)

Day 1: SFITS – University Hospital of Geneva (HUG), Switzerland

Day 2: Centre Hospitalier Universitaire Vaudois (CHUV) – Lausanne, Switzerland

Welcome

The EMEA Complex Segmentectomies Course is designed to increase skills to perform complex segmentectomy procedures of experienced Thoracic Surgeons through interaction with international experts and hands-on practice in the cadaver lab.

Focus will be given to indications for segmentectomy, segmental anatomy for complex segments and how unexpected intraoperative findings impact surgical decision making.

Faculty will share insights into their own practice and offer tips and tricks based on their experience.

Yours sincerely,

Cecilia Trazzera

Professional Education Manager
